EDUCATION

NEW PROGRAM
Early childhood and
Special Education

Puss in Boats

On a voyage of discovery, apprentice sailors will be accompanied by the ship's cat and use all their senses to experience life aboard a 17th century square rigged sailing ship. They will also help the Captain's loyal cat hunt out the dastardly rats and learn about piracy, treasure and shipwrecks.

This program is relevant to the following Learning Areas and outcomes:

English - Speaking, listening, viewing

Society and Environment - Place and space; time, continuity and change; resources; natural and social systems (teamwork of crew, mutiny)

Health Education - Knowledge and understandings (diet, hygiene)

Science - Earth and beyond (navigation)

Technology and Enterprise - Technology in society (hammock, navigation equipment, weapons, toilets)

Mathematics: - Measurement (measuring speed, depth, distance and direction, judging mass of cannon ball)

Time: 1-1.25 hours

Cost: \$4.00 per student

Suits: Early childhood (K-Year 3) & Special Education

Please advise if special disability access is required
