

Threatened or Thriving Facilitated Program

Overview: Explore the threats to our native animals and plants from the south-west of WA, and discover how we can protect them, in our interactive board game.

Duration: One hour facilitated experience with a Museum Education Officer.
Please allow approximately 45 minutes additional time for self-guided gallery exploration using Student Activity sheets.

What your class will experience:

- Explore various threats for Western Australia's flora and fauna.
- Discover the 'helping hands' that keep our flora and fauna from extinction.
